Activities

- Development & maintenance of green spaces:

As an experienced landscaping contractor, we're able to work in a wide variety of capacities, including projects of creation, maintenance and rehabilitation of the various sites.

- Lawn care & construction:

For a green landscape opt for rolls grass turf or seedling. We put the appropriate means to achieve a perfect and resistant grass!

- Interior design vegetal:

As an integral part of interior design, we help you in incorporating greenery into your office design to create a positive and welcoming environment (courtyard, terrace, balcony ...).

Our passion

- Ornamental production:

We produce about 200 different references of well-branched ornamental plants, grown with the best soil and fertilizer, ranging from small seedlings to large trees.
